Bormioli Rocco

HORECA PROFESSIONAL GLASSWARE

Dal 1825 Bormioli Rocco arreda la tavola con prodotti in vetro contraddistinti dall'autenticità dello stile italiano. Un'ampia offerta di calici, bicchieri, piatti e complementi in vetro per offrire una vera esperienza a tavola con stile e personalità. Un brand che incontra il consenso a livello internazionale, sia del consumatore che del canale professionale.

Bormioli Rocco has been decorating the dining table with glassware products in true Italian style since 1825. A wide selection of stemware, tumblers, plates and glass accessories resulting in an authentic experience filled with style and character.
A brand appreciated at international level, from the consumers to the catering professionals.

Ricerca ed innovazione continue, materiali all'avanguardia, creatività, gusto e assoluta eleganza nel design caratterizzano una ricca offerta di articoli per la tavola di alta gamma.
Luigi Bormioli è riconosciuto come lo stilista del vetro, l'espressione del Made in Italy nel mondo che da sempre produce rispettando elevati standard di qualità e contenuti di design.

Ongoing research and innovation, cutting-edge materials, creative flair, stylish and absolutely elegant design
are the features that distinguish a broad selection of high-end tableware collections.
Luigi Bormioli is an acknowledged glassware stylist, an expression of "Made in Italy" excellence worldwide that has always produced in accordance with the highest quality standards and design contents.

Una collezione che propone un'ampia gamma di prodotti professionali frutto di ricerche tecniche, analisi sensoriali e studi scientifici su forme, capacità, materiali e trattamenti innovativi.
Ne risulta un'ampia varietà di strumenti ad altissima precisione dedicata al mondo della degustazione del vino e della miscelazione.
Tutti gli articoli Accademia Luigi Bormioli sono prodotti
in Vetro Sonoro Superiore soffiato Hight-Tech SON.hyx®: i contenuti di Pb (Piombo), Hg (Mercurio), Cr (Cromo) (VI) non sono rilevabili, quindi al di sotto del valore limite di 100 ppm.
Gli steli dei calici sono sottoposti al trattamento anti-abrasione permanente Titanium Reinforced®, che ne aumenta la resistenza alle rotture per una lunga durata di servizio.

A collection that offers a broad range of professional products, result of technical research, sensory
analysis and scientific studies into shapes, capacities, materials and innovative treatments.
The outcome is a wide variety of high-precision glassware tools dedicated to the world of wine tasting and the cocktail art of mixing.
All Accademia Luigi Bormioli articles are made of SON.hyx® Superior blown Crystal Glass: contents of Pb (Lead), Hg (Mercury), Cr (Chromium) (VI) are not detectable, therefore below the 100 ppm limit value.
All stemglasses' stems are Titanium Reinforced® with a permanent anti-abrasion treatment which increases their resistance to breakages resulting in a longer service life.

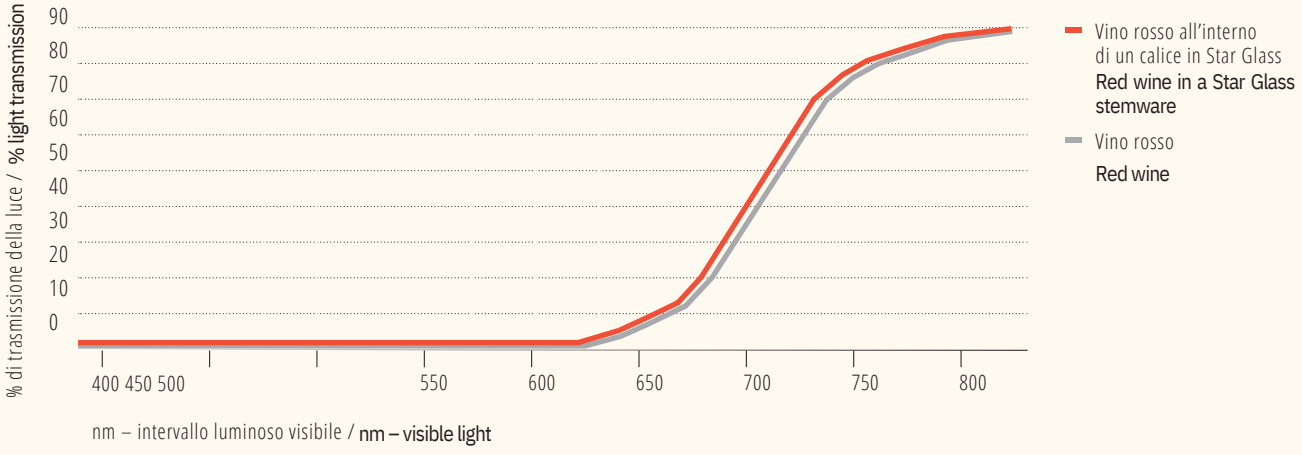

VETRI SPECIALI / *SPECIAL GLASS*

Un Vetro ultra brillante e trasparente per apprezzare l'intensità del colore originale di vini e distillati.
Una nuova composizione del materiale unitamente a processi e procedimenti produttivi appropriati hanno incrementato la resistenza alle rotture degli articoli in Star Glass del 30%.
La composizione di materie prime selezionate conferisce a questo vetro un'elevata purezza.

A totally transparent Glass with exceptional brilliance to appreciate the intensity of the colour and the original hues of wines and spirits.
An improved glass composition together with appropriate production processes have increased the resistance to breakages of the products in
Star glass by 30%. The composition of selected raw materials contribute to a high purity glass.

Le curve sovrapposte indicano che Star Glass è **perfettamente neutro e non altera il colore dei liquidi contenuti**.

The overlapping curves indicate that Star Glass is **perfectly neutral and does not alter the colour of the liquids contained**.

EXTRA
RESISTANCE

RESISTENZA / *RESISTANCE*

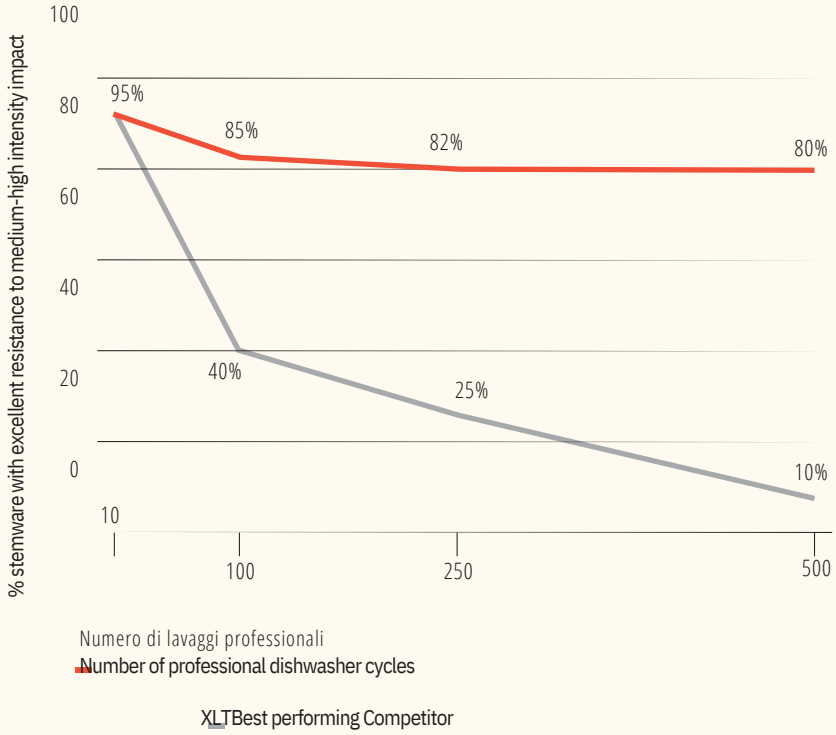

TRATTAMENTO XLT
XLT Treatment

Il trattamento XLT, praticato sulla superfice degli steli dei calici Bormioli Rocco, assicura la **migliore resistenza** alle più frequenti cause di rottura (lavaggi, torsioni, ecc.).
Protegge lo stelo dalle abrasioni e **mantiene inalterata nel tempo la sua robustezza**.
Prove di laboratorio (vedi grafico esplicativo) confermano il **costante livello di protezione** anche dopo ripetuti lavaggi in lavastoviglie.

The XLT treatment on the surface of the stems ensures Bormioli Rocco stemware resistance to the most frequent causes of breakage (washing, twisting, etc.).
XLT protects the stem from abrasion and maintains its sturdiness over time.
Laboratory tests (see explanatory chart) confirm the constant level of protection even after repeated dishwasher cycles.

L'analisi evidenzia che, nonostante caratteristiche inziali di resistenza assimilabili, **la resistenza di XLT dura nel tempo.**

Analysis has shown that, despite similar initial resistance performances, the XLT resistance lasts over time.

Fonte: test effettuato dal Laboratorio Analisi di Bormioli Rocco su articoli sottoposti a usura tipica da utilizzo quotidiano.
Source: internal test conducted by the Bormioli Rocco analysis laboratory on stemware subjected to daily use.

RESISTENZA / *RESISTANCE*

VETRO TEMPERATO
Tempered Glass

Il processo tecnologico di tempera (repentina escursione termica della superfice), agendo sulla struttura molecolare del vetro, rende i prodotti Bormioli Rocco particolarmente: • **resistenti agli shock meccanici**
(urti), fino a 2,5 volte in più rispetto al vetro normale;
• **resistenti agli shock termici**
(sbalzi di temperatura con ΔT
da 100° C fino a 160°C a seconda dell'articolo).
Il trattamento di tempera rende i prodotti Bormioli Rocco particolarmente idonei ad un uso intenso, sicuro e reiterato nel tempo.

The toughening technology (rapid surface cooling), acting on the glass molecular structure,
makes the Bormioli Rocco products particularly:
• resistant to mechanical shocks (impact),
up to 2,5 times more than non-toughened glass;
• resistant to thermal shock
(resistant to thermal shocks ΔT
from 100° C / 212°F to 160°C / 320°F
depending on the item).
The toughening technology makes Bormioli Rocco products highly-safe for intensive use.

VETRO COLORATO / *COLOURED GLASS*

VETRO COLORATO IN PASTA
Mass Coloured Glass

Is the result of all Bormioli Luigi's companies technology to colour the glass during the production phase.
This process allows the colour to remain unchanged throughout the lifespan of the glass.
All “Infinity Colour” products are diswasher-safe.
